PROFILE

Detail-oriented MERN Stack Developer with a Bachelor's in Computer Science and a solid foundation in software engineering principles. Proven ability to deliver impactful solutions.

EDUCATION

NED University of Engineering & Technology
Bachelor of Science in Computer Science; CGPA: 82%

Karachi, Pakistan
2020 – 2024

SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Redux, React Router, Axios, Express.js, Node.js, Django, Bootstrap, Tailwind CSS

Databases: MongoDB, MySQL

EXPERIENCE

MERNStack Developer | Esolace Tech

April 2024 – June 2025

- Developed and deployed a user-friendly Q&A platform using the MERN stack, significantly increasing user engagement.
- Engineered user authentication, advanced search, and a voting system for ranking answers, improving content relevance.
- Managed MongoDB operations and built a responsive React front-end, ensuring seamless performance and an intuitive user experience.

PROJECTS

Freshmart | <https://fresh-mart-zeta.vercel.app/>

- FreshMart is a modern and visually captivating e-commerce platform for fresh grocery delivery.
- Implemented e-commerce functionalities: add-to-cart, quantity updates, item removal, and accurate total price calculation.
- Integrated sophisticated filter functionality and robust route protection mechanisms for authenticated user access.

Shopify-X | <https://shopify-x-web.netlify.app/>

- Developed a modern and responsive clothing e-commerce store with React JS, focusing on a smooth user experience and intuitive UI.
- Implemented effective category filters for Men, Women, and Children, enhancing product discoverability.
- Integrated secure login and a dynamic cart system displaying items, quantity, and real-time total price, streamlining the purchasing process.

Job Portal | <https://github.com/waqar606/jobwebsite-mern>

- Built a comprehensive full-stack Job Portal using MERN stack and ShadCN UI, supporting distinct functionalities for students and recruiters.
- Enabled students to browse and apply for jobs, manage profiles, and track application statuses, improving job search workflow.
- Empowered recruiters to create company profiles, post job openings, and manage student applications through integrated approval/rejection mechanisms

Course Heaven | https://github.com/waqar606/Course_App

- Developed and launched a full-stack Course Heaven platform using MERN stack, integrating Stripe for secure online course payments.
- Enabled users to seamlessly browse and purchase courses via a secure Stripe checkout process.
- Designed and implemented a robust administrative panel for admins to efficiently manage course content.

EXTRACURRICULAR ACTIVITIES

- Contributed to open-source projects, enhancing code quality and diverse development environment experience.
- Initiated and completed personal coding projects to gain practical experience and showcase skills.
